(1) Figures adjusted for delayed reports. (2) Exclusive of Yukon and Northwest Territories. (3) Total accumulated to the end of the current week from the first week ending in January of the year stated. (4) Includes cases where type was not specified. (5) Scarlet fever includes cases of streptococcal sore throat; streptococcal sore throat not reportable in New Brunswick and Quebec. (6) Type not specified. (7) Includes chancroid, granuloma inguinale and lymphogranuloma venereum. .. Not reportable. (8) British Columbia reports 17,536 cases of influenza, epidemic for the report week and 21,550 cases for the previous week.

THE SITUATION IN THE UNITED STATES (Source: "MORBIDITY AND MORTALITY WEEKLY REPORT", U.S. National Office of Vital Statistics): Number of reported cases for the current week (previous week in parentheses):

Diphtheria 45 (41); Measles 1,305 (1,087); Meningitis, other 48 (36); Poliomyelitis, with paralysis 73 (61); Smallpox - (-); Undulant fever 10 (15); Encephalitis infectious 36 (40); Meningococcal infections 68 (43); Poliomyelitis, acute 112 (112); Poliomyelitis, without paralysis 27 (33); Typhoid fever 17 (43);

The occurrence of influenza and influenza-like disease for the week ended October 26 showed no marked change from that of the previous week. Some states reported the extension of high absenteeism rates to schools not previously affected. Other reported a decline in some schools but extension to others. Increased absenteeism rates have been noted in some industrial or other employee groups, but in most instances these have not been large. Statewide occurrence of influenza was reported in some states in both the school and the general populations.

*NEWFOUNDLAND reports Influenza (epidemic) at St. John's; Winterton, T.B.; Corner Brook; Windsor; Channel, Port aux Basques; Gander; Tilt Cove, C.B.; Bay de Verde; Old Perlican; Lower Island Cove, C.B.; Brownsdale, T.B.; St. Joseph's, St. Mary's Bay; Trepassey.

NEW BRUNSWICK reports Influenza-like Disease has been prevalent particularly in Gloucester and Restigouche Counties and to a lesser extent in York and Charlotte. School children have been mainly affected.

**NEWFOUNDLAND reports Mumps (epidemic) at Bloomfield, B.B. and Windsor.
